

LPFM should not replace FM translator services. Where I live many enjoyable stations use this cost effective format. One of my favorite stations is K-Love on 91.5, 90.5 and 104.3. This station provides enjoyable music without vulgar language and is one of the few that serves the public interest this way. The community would lose a valuable resource if displaced by a LPFM station. I am against LPFM displacing any current radio services.
